NOTE: In 2018, when the New Mexico Farm and Ranch Heritage Museum began switching to digital recordings (from cassettes), I purchased my own Sony Digital Recorder. Digital recorders were still relatively new technology, and I wanted to allow time for companies like Sony, Roland, Phillips, and Tascam to correct any kinks in their technology before the museum went to the expense of getting an expensive recorder. We used this recorder for many years, and it produced good audio, was easy to use, and was all that we really needed. Tascam and Roland have features that most facilities will never use, so I recommend a mid to upper range Sony as a good starting recorder.
